Dear Golan,

As I understood, you mean two PCT applications claiming priority from, respectively, (1) US provisional "Micro optics structure fabrication and method for utilizing the same", filed 23/07/2003, and (2) US provisionals "Optimized projection system and method" filed 05/09/2003 and "Optimized light source and beam shaping system and method" filed October 17, 2003.

Hence, first PCT application is due by July 23, 2004, and the second one - by September 5, 2004.

We shall open our file for the second application, and shall provide you with the filing-stage costs estimation for each application.

Svetlana,

After internal discussions we prefer to submit separate PCTs for the two provisionals. When are the PCTs due (if we separate)?
